

### Safety Information on Woods

#### Class

**Irritant:** Fairly rapid reaction after exposure; will cause similar reaction repeatedly.  
**Sensitizer:** More severe; may have latency period of hours or months and may require repeated handling before reaction occurs; reactions tend to become more severe over time.

#### Reaction Category

Eyes and Skin Irritations: Hives Itching, Redness. Respiratory Problems.  
 Nausea, Headache or general malaise; possibly even liver or kidney malfunction.  
 Cancer of nose & sinus. Statistics show that woodworkers have a 40% Greater chance of nasal cancer than the general population, but the majority of statistics on nasal cancer are based on data from 1920-1960 when the furniture industry became highly mechanized with little or no dust control methods.

#### Toxicity Strength (where known)

Small    Great    **EXTREME**

Source: of toxicity (dust)  
 Dust, Wood, Leaves or Bark

Spalting is any form of wood coloration caused by fungi.  
 Spalted wood should always considered **TOXIC**

BW LUMBER ROOM

Type	Class/Reaction	Site	Toxicity Strength	Source
Abura/bahia	Vomiting, nausea, giddiness, [difficult to remove splinters]	Eyes, Skin, Respiratory		
Afara	Splinters become septic, nettle rash, nose and gum bleeding, decrease in lung	Skin, Respiratory		
Afromosia	<b>Irritant</b> . Nervous system effects, splinters go septic, rhinitis, asthma	Eyes, Skin, Respiratory	<b>Great</b>	Dust
Afzelia/doussie	Dermatitis, respiratory problems, sneezing, nose and throat irritation	Skin, Respiratory		
Agba/tola	<b>Irritant</b> , dermatitis	Skin		
Alder, Common	<b>Irritant</b> , dermatitis, bronchial problems	Eyes, Skin, Respiratory		
Alder, Red	Dermatitis, rhinitis, bronchial problems			
Amboyna	Dermatitis, asthma, nausea	Skin, Respiratory		
Andiroba/crabwood	<b>Irritant</b>	Eyes, Respiratory		
Angelicao	<b>Irritant</b>	Eyes, Skin, Respiratory	<b>Great</b>	Dust
Angelin	Dermatitis	Skin		
Apple	Unknown			
Arborvitae	<b>Irritant</b>	Respiratory		
Ash, American	<b>Irritant</b> ; Decrease in lung function, rhinitis, asthma	Respiratory		
Ash, European	Decrease in lung function, rhinitis, asthma	Respiratory		
Ash, Japanese	Can affect lung function	Respiratory		
Ash, Silver	Unknown
